

What You See Depends Upon Where You Look Intuition, Imagination and Photography

A VIRTUAL Ghost Ranch workshop by Randee Lawrence and Cecilia Broder

November 7, 14, 21 and 28, 2022, 5:00-7:00 PM

About Ghost Ranch

Ghost Ranch, 21,000 acres located in Abiquiu, New Mexico, is an ecumenical and interfaith education and retreat center of the Presbyterian Church (U.S.A.). For over half a century, people have come here for spiritual development, to discuss issues of peace and justice, to work together in creation care, to paint and write, to hike and to ride horseback, to research rich and globally renowned archaeological and fossil quarries, to see where Georgia O'Keeffe painted, to try something new or to simply rest and renew their spirits.

Photography is both an art and a craft. Almost anyone can learn the proper settings for creating a “good” photo. This workshop teaches you how to be a better observer and to create images that engage the heart as well as the head and stir the imagination. When we get out of our heads and release expectations of what the image ought to look like, we free ourselves to create images with warmth and passion.

This workshop will meet on Zoom for 4 Mondays.

You will have the opportunity during the week to work on various photography projects in your community.

The workshop is open to photographers at all levels with any type of camera. All you need is a willingness to explore

new techniques and move beyond your tried and true ways of creating images.

“The image is where you are”
